Eligibility: Dental students--all classes

Course Director: Dr. Diane Shugars

Credit Hours: One credit hour will be awarded by the Office of Administrative Affairs after the course requirements have been completed. Note: Dental students must complete between 5 and 9 Elective Course Credit hours before graduation (the exact number of Elective credit hours depends on the number of Continuing Education credit hours).

Course Requirements: You must attend the full day’s events at Dental Research in Review Day (DRRD) on February 12, 2003, as detailed below. Attendance will be documented by a member of the Student Research Group. Also, you must either write a 3 page (double-spaced) paper describing a research topic presented at DRRD and its application to clinical dentistry OR give an oral or poster presentation during DRRD. Return the completed form and paper (if applicable) to Room 395, Dental Office Building (Dental Ecology Office), by Friday, February 21, 2003. You will be notified by e-mail of your grade shortly thereafter. Thanks for your interest in this elective course!

Your name (please print): _____________________________________________
Your student number: _______

DRRD: February 12, 2003
Attendance for each of the day’s activities is required. A Student Research Group member will initial the following events as you attend them.
